XX. Population of Canada in 1901, and representation in the House of Commons according to the districts of the Representation Acts 1903, 1904 and 1907	76-78
XXI. Members of the House of Commons and Senate, 1867-1908.	79

AGRICULTURE

XXII. Occupiers of lands and lands occupied, 1871-1901	80-81
XXIII. Products of field crops, 1871-1901	82-84
XXIV. Areas and products of field crops, 1891-1901	85-88
XXV. Comparative statistics of principal grain crops in eastern provinces with Manitoba and the Territories, 1891-1901	89
XXVI. Fruit production, 1871-1901	90-91

AGRICULTURE—con.	PAGE.
XXVII. Number of fruit trees and grape vines and area of orchards, gardens, vineyards and nurseries, 1901.....	92-93
XXVIII. Live stock, 1871-1901	94-95
XXIX. Animal products, 1871-1901.....	96-97
XXX. Values of farm property and products, 1901.....	98-99
XXXI. Summary of farm values, 1901.....	100
XXXII. Rent and hired labour, 1901.....	101
XXXIII. Butter and cheese making, 1901.....	102-103
XXXIV. Butter and cheese making, 1871-1901.....	104
XXXV. Average number of live stock per farm, 1901	105
XXXVI. Average of animal products per farm, 1901.....	105
XXXVII. Average production of principal field crops per farm, 1901.....	105
THE FOREST	
XXXVIII. Production of timber, logs, wood, etc., 1871-1901.....	106-109
XXXIX. Values of timber, logs, wood, etc., 1901.....	110-112
XL. Values of forest products exported from Canada in the five fiscal years 1904-1908	113
XLI. Value of furs, 1881-1901	113
THE MINES	
XLII. Mineral products by quantities, 1871-81-1901.....	114-115
XLIII. Mineral products by quantity and value, 1901.....	116-121
XLIV. Averages and ratios for mines and works, 1901.....	122
XLV. Metals and metal products (including pig iron), 1891 and 1901. . . .	122
XLVI. Mineral products of the Dominion, 1901	123
MANUFACTURES	
XLVII. Statistics of industries, 1871.....	124-127
XLVIII. Statistics of industries, 1881.....	128-131
XLIX. Statistics of industries, 1891	132-136
L. Statistics of industries, 1901.....	137-142
LI. Values of real estate, plant and working capital, 1901	143
LII. Persons employed on salaries, 1901.....	143
LIII. Persons employed on wages, 1901.....	143
LIV. Working time of wage-earners, 1901.....	144
LV. Total employees, salaries and wages, 1901.....	144
LVI. Averages of salaries and wages, 1901. . . .	144
LVII. Working time of establishments, 1901.....	145
LVIII. Miscellaneous expenses, 1901.....	145
LIX. Cost of materials and value of products, 1901.....	145
LX. Principal statistics of manufactures, 1901.....	146
LXI. Power employed in manufacturing establishments, 1901. ✓	146
LXII. Horse power aggregates and averages, 1901.....	147
LXIII. Classes of power, 1901.....	147
LXIV. Principal manufacturing establishments of 1901 by groups of products.....	147-148
LXV. Statistics of industries, 1906.....	149-153

MANUFACTURES—con.

PAGE.

LXVI.	Principal manufacturing establishments of 1906 by groups of products.....	154-155
LXVII.	Comparative statement of values of production, 1881-1906.....	156
LXVIII.	Average production per wage-earner, 1881-1906	156

WAGE-EARNERS

LXIX.	Number of occupations of wage-earners by classes, 1901.....	157-158
LXX.	Earnings at regular work by classes of occupations, 1901.....	159
LXXI.	Extra earnings by classes of occupations, 1901.....	159
LXXII.	Employees and salaries by principal occupations in the professional class, 1901.....	159
LXXIII.	Number and average salaries of teachers by sex in provinces, 1901...	160
LXXIV.	Total occupations and percentage of occupations by sex in provinces, 1901.....	160
LXXV.	Percentage of total time and earnings by sex in provinces, 1901....	160
LXXVI.	Percentage of total time and earnings by classes of occupation, 1901.....	160

NORTHWEST PROVINCES

LXXVII.	Population by districts, 1906 and 1901.....	161
LXXVIII.	Sex, conjugal state, birthplace and ages of the people in 1906.....	162-163
LXXIX.	Number and population of cities, towns, villages, townships, etc., in 1901 and 1906.....	164
LXXX.	Immigration by provinces, 1st January 1901 to 24th June 1906	164
LXXXI.	Population of cities, towns and incorporated villages in 1906 and 1901 as classed in 1906.....	165-166
LXXXII.	Farms in the provinces in 1906 and 1901	167
LXXXIII.	Horses, horned cattle, sheep and swine in the provinces in 1906 and 1901.....	168
LXXXIV.	Field crops of 1900, 1905 and 1906.....	169-170
LXXXV.	Areas of all field crops in 1905 and 1906, together with whole number of occupied farms and of farms growing wheat, barley and oats in 1906.....	170

EASTERN PROVINCES

LXXXVI.	Farm land cleared, in all crops and in orchard and garden in Ontario, Quebec and the Maritime Provinces in 1907 and 1901....	171
LXXXVII.	Fall wheat, spring wheat and oats in Ontario, Quebec and the Maritime Provinces in 1907 and 1901.....	171
LXXXVIII.	Barley, rye and buckwheat in Ontario, Quebec and the Maritime Provinces in 1907 and 1901.....	172
LXXXIX.	Corn in ear, mixed grains and beans in Ontario, Quebec and the Maritime Provinces in 1907 and 1901.....	172
XC.	Peas, potatoes and roots in Ontario, Quebec and the Maritime Provinces in 1907 and 1901.....	173
XCI.	Hay, corn for forage and totals of cereals in Ontario, Quebec and the Maritime Provinces in 1907 and 1901	173
XCH.	Areas of field crops per 100 acres of occupied farm land in Ontario, Quebec and the Maritime Provinces in 1907 and 1901.....	174
XCIII.	Live stock in Ontario, Quebec and the Maritime Provinces in 1907 and 1901.....	174

II. TABLES COMPILED FROM DEPARTMENTAL REPORTS.

TRADE AND COMMERCE	PAGE.
XCIV. Aggregate trade of Canada by countries during the fiscal year ended March 31 1908. Includes coin and bullion.....	176
XCv. Aggregate trade of Canada, 1868-1908	177
xcvi. Exports of Canada by values of home and foreign produce in the 41 fiscal years 1868-1903, and duties on exports.....	178
xcvii. Imports of Canada by values entered for consumption in the 41 fiscal years 1868-1908, and duties on imports.....	179
xcviii. Exports of Canada to Britain, United States and other countries of merchandise the produce of Canada by classes and values in the 41 fiscal years 1868-1908.....	180-187
xcix. Imports of Canada by values entered for consumption from Britain and United States in the 41 fiscal years 1868-1908, exclusive of coin and bullion	188
c. Imports of Canada by values entered for consumption from all countries in the 41 fiscal years 1868-1908, exclusive of coin and bullion.	189
ci. Exports of Canada by values of home produce to British Empire and foreign countries in the five fiscal years 1904-1908; also coin and bullion.....	190

THE CANADA YEAR BOOK 1908

The fourth volume of the Second Series of the Year Book is for 1908, and it deals practically with the same subjects as the volume for 1907. Several new tables have been added, and the section relating to minerals has been expanded to include statistics of production for a series of years. The notes of Events of the Year have been prepared principally by Mr. E. H. Godfrey and the tables by Messrs. Joseph Wilkins and James Skead.

ARCHIBALD BLUE,

Chief Officer.

Census and Statistics Office,
Ottawa, May, 1909.

EVENTS OF THE YEAR

During the fourth and last session of the tenth Parliament of Canada 172 measures were enacted. The session lasted from November 28 1907 to July 20 1908. Public general acts numbered 77, and the principal subjects of legislation were old age annuities, the provision of seed grain for the season of 1908, the inspection and marketing of grain, the Quebec tercentenary, the Dominion civil service, homesteads, immigration, transportation, the conduct of elections, tobacco, opium, patent medicines, and the treatment of juvenile delinquents. The remaining 95 acts were local and private.

Owing to the exceptional character of the season of 1907 the provision of an adequate supply of seed grain (wheat, oats and barley) for the spring sowings of 1908 in Saskatchewan and Alberta became a matter of urgent public importance, necessitating the intervention of the Dominion and provincial Governments. A late spring and consequently delayed seeding operations in 1907 was followed by continuous and prolonged moisture, which in many places prevented the due ripening of the crops. The occurrence of early and severe frosts before the ripening of the grain rendered the crops over large areas of the two provinces wholly unfit for seeding purposes, whilst in other cases grain was so badly frosted that its use for seed was manifestly inadvisable. A large proportion of the farmers in the two provinces, though financially of good standing, were not in a position to pay cash for the purchase of seed, and from various causes, but chiefly owing to their recent organization, the provincial governments of Saskatchewan and Alberta were not able to advance the funds required.

In these circumstances, and after ascertainment of the probable requirements according to the conditions then existing, supplementary estimates were submitted to the Dominion Parliament, involving the appropriation of \$2,850,000 for the purchase and distribution of seed grain to the farmers of Saskatchewan and Alberta under easy terms of repayment. Of the sum named, which was granted by the Dominion Parliament in the Appropriation act, chapter 1, \$585,000 was allocated for seed grain to be supplied by the Dominion Government to homestead settlers, the cost to be repaid with interest at five per cent per annum, and until repayment to be a lien or charge upon the lands of the settlers held under homestead entry, and \$1,825,000 and \$440,000 were appropriated for advance to the governments of Saskatchewan and Alberta, respectively, for the purchase of seed grain for settlers, the amounts to be repaid to the Dominion Treasury on or before March 31 1909, with interest at five per cent per annum, and if not then repaid to become a

Dominion
Parliament.

Appropriations for seed
grain.

charge upon any subsidy or grants payable by the Government of Canada to the governments of the provinces. Shortly after these arrangements had been completed a perceptible change occurred in the financial condition of the west, and banks, loan companies and private individuals came to the assistance of those requiring seed. The result was that the quantities actually supplied through government agency were fortunately far short of the original estimates, and the public situation was relieved to that extent.

Quantities of grain purchased.

The total quantity of wheat purchased was 557,364 bushels valued at \$567,551, of oats 1,024,861 bushels valued at \$671,169, and of barley 50,807 bushels valued at \$46,302, the total value of the three cereals being \$1,285,022, or less than half of the sum originally appropriated. The net expenditure incurred in the purchase and distribution of this grain was \$1,373,808, of which \$507,949 was expended by the Dominion Government on behalf of homestead settlers, from whom the sums advanced are recoverable direct, \$714,944 was advanced to the provincial government of Saskatchewan and \$150,914 to the provincial government of Alberta. In spite of considerable pressure caused by limitations of time, the arrangements were carried through successfully, and the special excellence of much of the seed supplied, secured by the payment of premiums in excess of the market price for milling, should have an important influence extending beyond the actual results of the season of 1908.

Government annuities for old age.

Chapter 5 is an act to authorize the issue of government annuities for old age. It gives power for the sale by the government to persons domiciled in Canada of immediate or deferred annuities depending on a single life, or partly depending on a single life and partly for a term of years certain, or of immediate or deferred annuities depending on the joint continuance of two lives with or without extension of benefit to the survivor. The interest of an annuitant is not transferable, and except in cases where annuities may be obtained with intent to delay, hinder or defraud creditors, the property or interest of any annuitant is not attachable. Annuities are not as a rule payable unless the annuitant has reached the age of 55; but in the event of death before arriving at this age all moneys paid will be refunded to the heirs with interest at the rate of three per cent compounded yearly.

Adulteration of cheese and marking of fruit.

Chapter 35 amends the Inspection and Sale act. It imposes penalties not exceeding \$500 and not less than \$25 for the adulteration of cheese during the process of manufacture by the incorporation therein of any inferior curd or cheese, and prohibits the placing in cheese of any foreign substance. The object of this legislation is to prevent the fraudulent practice of "stuffing" cheese with worthless curd or old cheese, and to stop the foolish practice of placing bottles containing notes, etc., in

cheeses during manufacture. This act also amends the Inspection and Sale act with regard to fruit and fruit marks, and imposes heavier fines and severer penalties for the violation of its provisions.

A novel and in many ways an interesting piece of experimental legislation is enacted by chapter 40, described as an act respecting juvenile delinquents. The preamble recites the inexpediency that youthful offenders should be classed or dealt with as ordinary criminals, the welfare of the community demanding that they should on the contrary be guarded against association with crime and criminals and should be subjected to such wise care, treatment and control as will tend to check their evil tendencies and to strengthen their better instincts. The act will operate only when and as proclamations declaring it in force in any province, city, town or other portion of a province are issued and published in the Canada Gazette. It contemplates the constitution of special juvenile courts before whom alone children apparently or actually under 16 may be charged with offences. Where the act is adopted children charged under it will be detained pending trial in special detention homes or places apart from adult prisoners; they will also be tried separately in private, and no publicity may be given to the proceedings without special leave of the judge. Probation officers will be appointed whose duty it will be to make such investigations as may be required by the court, to be present in court to represent the interests of the child when the case is heard, to furnish the court such information and assistance as may be required and to take charge of any child before or after trial as directed.

Juvenile court committees consisting of citizens serving without remuneration are also to be appointed, and these, acting in concert with children's aid societies, will consult with the probation officers, advise the court as to the best method of dealing with cases of juvenile delinquents and generally facilitate reformation by every means in their power. Under the act children, save infants in arms and witnesses, may not be allowed in court during trial. Children proved to be juvenile delinquents may either be fined, sent to industrial schools, placed in a foster home or allowed to remain in their own homes, but until discharged by order of the court or on attaining the age of 21 they continue to be wards of the court, and during continuance of the wardship they are liable to be returned by order of the court for other proceedings, including discharge upon parole or release from detention. The whole act is novel in that its principle is not deterrence by the punishment of crime, but reclamation and the reformation of character by special agencies and the prevention of the further contamination of juvenile offenders through contact with hardened adult prisoners and convicts.

Section 31 is notable in an act of Parliament. It reads: Parental character of the act. "This act shall be liberally construed to the end that its purpose may be carried out, to wit: That the care and custody and discipline of a juvenile delinquent shall approximate as nearly as may be that which should be given by its parents, and that as far as practicable every juvenile delinquent shall be treated, not as a criminal, but as a misdirected and misguided child, and one needing aid, encouragement, help and assistance." The operation of the act wherever put into force will be watched with much interest by social reformers.

Juvenile smoking. Chapter 73 seeks to restrain the use of tobacco by young persons under 16 and thereby to repress a habit that is seriously affecting the health of many Canadian boys. The act prohibits the smoking or chewing of tobacco in public places by young persons under 16, renders offenders liable on summary conviction to reprimand for a first offence and to fines for subsequent offences, authorizes constables to seize tobacco found in the possession of young persons under 16 who are smoking, chewing or are about to smoke, and imposes penalties upon the persons who supply them with tobacco. Provisions applying to the use by young persons of automatic machines for the sale of tobacco are also included in the act.

Tobacco and wood alcohol. Chapter 34 amends the Inland Revenue act, chapter 51 R.S. 1906, in respect of the manufacture in Canada of tobacco, cigars and cigarettes, and is designed to improve and encourage the production of home-grown tobacco by a substantial reduction of the excise duties payable thereunder. A new part is added to the Inland Revenue act providing for the conditions under which licenses may be granted for the manufacture in Canada of wood alcohol.

Grants of land to South African volunteers. By the Volunteer Bounty act 1908, chapter 67, two adjoining quarter sections of Dominion lands, available for homestead entry, are granted to each Canadian volunteer and female nurse who served with the British forces in South Africa during the years 1899 to 1902. The grant, which may be transferred to a substitute in the manner prescribed, is subject to the conditions that each grantee or substitute shall select and enter for the two quarter sections in the Dominion Lands Office for the land district in which they are situated on or before December 31 1910, that he shall perfect his entry by commencing actually to reside upon and cultivate the land within six months after that date, and that he shall thereafter reside upon and cultivate the land for the period and in accordance with the terms and conditions prescribed by the homestead provisions of the Dominion Lands act. In lieu of homestead land each grantee or substitute may receive scrip, value \$160, which will be exchanged at its face value in payment of any Dominion lands open for sale. Notice of the intention to take scrip must be given to the Minister of the Interior on or before December 31 1910. The entries made

and the patents issued under the act will be exempt from all fees and charges exacted in the case of any ordinary homestead entry.

The object of chapter 12 is to assist in maintaining an independent and efficient service of telegraphic news from Great Britain for publication in the Canadian press. Under the act sums not exceeding \$9,000 for the period from July 1 1908 to March 31 1909, \$12,000 for the fiscal year ending March 31 1910 and \$3,000 for the period from April 1 to June 30 1910, may be paid by the Minister of Finance to an association or committee representing the proprietors of such newspapers as associate themselves for the purpose of maintaining the service. It is provided that the service must be open on fair and reasonable terms to all newspapers published in Canada, and that not less than one-half of the cost of maintaining it must be paid by the proprietors of the newspapers participating in the benefits. Telegraphic news from Great Britain.

By the Bank act, chapter 29 R.S. 1906, it was provided that in the case of the banks to which the act applied the total amount of the notes in circulation at any time should not exceed the amount of the unimpaired paid-up capital. Amendments to this act made by chapter 7 of the last session provide that during the usual season of moving the crops, viz. from October 1 to January 31, the banks may exceed this limit by issuing notes to an amount not exceeding 15 per cent of the combined unimpaired paid-up capital and reserve or rest fund. While its notes in circulation are in excess of the unimpaired paid-up capital any bank must pay interest at such rate not exceeding 5 per cent per annum as is fixed by the Governor in Council on the excess notes in circulation from day to day, the interest so paid to form part of the consolidated revenue fund. The object of these amendments is to provide additional financial facilities for the quick transportation of Canadian farm products to the markets of the world. Special provisions apply to the Bank of British North America. Financial facilities for marketing of farm products.

The Proprietary or Patent Medicine act, chapter 56, which comes into force April 1 1909, brings the sale of patent medicines in Canada under strict regulation and control. Manufacturers and importers of patent medicines with their agents must obtain annual certificates of registration from the Minister of Inland Revenue, and all packages and bottles containing such medicines must be labelled with the registration number, the name of the medicine, the words 'The Proprietary or Patent Medicine Act' and the manufacturer's name and address. A proprietary or patent medicine is defined as— Sale of patent medicines.

Every artificial remedy or prescription manufactured for the internal use of man, the name, composition or definition of which is not to be found in the British Pharmacopœia, the Codex Medicamentarius of France, the Pharmacopœia of the United States, or any foreign pharmacopœia approved by the Minister [of Inland Revenue], or any formulary adopted by

any properly constituted pharmaceutical association representing the Dominion of Canada approved by the Minister; or upon which is not printed in a conspicuous manner, and forming an inseparable part of the label and wrapper, the true formula or list of medicinal ingredients, which must not contain cocaine or any of its derivatives or preparations.

Prohibition of cocaine and alcohol. Cocaine is absolutely prohibited as an ingredient of patent medicines, and so is alcohol unless its amount or character is within exceptions prescribed. Patent medicines that contain any of 31 poisonous or injurious drugs scheduled may not be manufactured or sold unless the name of the drug is conspicuously printed on and forms an inseparable part of the label or wrapper. The Minister of Inland Revenue may grant exemptions from this provision where he is satisfied that the proportion of the drug used is not injurious to health. Samples of patent medicines may not be distributed to the public, and the improper use of the certificates of registration granted under the act is guarded against.

Penalties for infringement. The penalties for infringement of the act vary from \$50 to not exceeding \$500 with cancellation of the certificate of registration, whilst forgery of certificates or labels is punishable by penalties not exceeding \$500 and not less than \$100, and by imprisonment with or without hard labour for any term not exceeding twelve months and not less than three months. The act contains other provisions as to procedure and the issue by the Governor in Council of regulations having the force of law.

The judiciary. Chapter 10 amends previous acts in order to make appeals lie in British Columbia to the court of appeal constituted in that province by act of the local Legislature, and it also amends the Judges' act, ch. 138, R.S. 1906, by providing that the salaries of the judges of the court of appeal in British Columbia shall be \$8,000 per annum for the chief justice of the court and \$7,000 per annum for each of three justices of appeal. Chapter 39 amends the Judges' act by providing for the appointment of 69 instead of 67 county and district court judges in Ontario and of eight instead of six county court judges in Manitoba. Provision is also made by this act for the pensioning on retirement of the chief and assistant chief of the Board of Railway Commissioners.

The Dominion civil service. On March 17 the Royal Commission which was appointed on May 8 1907 to inquire into the operation of the Civil Service act and kindred legislation presented a report dealing fully with questions affecting the organization of the service and including the system of appointments, promotions, classification, salaries, discipline, retiring allowances and other matters. Chapter 15, the Civil Service amendment act, passed on July 20, gives effect to some of the more important of the recommendations of the Commission. It provides for the classification of what is known as the inside service into three divisions under the deputy heads of departments, each division consisting of two sub-divisions, defines the nature of the duties

assigned to each and prescribes a revised scale of minimum and maximum salaries.

A permanent Civil Service Commission is constituted to consist of two members appointed by the Governor in Council, each commissioner holding office during good behaviour but being removable by the Governor General on address of the Senate and House of Commons. The duties of the commission relate generally to the operation of the Civil Service act and the organization of the service, and specifically include the arrangements for the examination of candidates for admission to the service. Except as otherwise provided, appointments to the inside service will in future be by competitive examinations, open only to British subjects between 18 and 35 years of age that have resided in Canada for at least three years. Section 8 of the act contemplates a definite organization of each department by Order in Council which may not be changed except by a subsequent order. The whole or any part of the provisions of the act may be made applicable to the outside service by Order in Council published in the Canada Gazette. Amongst other matters of detail the act includes provisions which relate to the appointment of professional and technical officers, messengers, packers, etc., temporary clerks, a record of employees, annual increases of salaries and voting at elections.

Civil Service
Commission.

Chapters 11 and 25 are acts respecting aid for the extension respectively of the Canadian Northern and Edmonton, Yukon and Pacific Railways. Chapter 18 repeals section 415 of the Railway act, R. S. ch. 37. The Government Railways act, R. S. 1906, ch. 36, is amended by chapter 31 in respect of compensation for animals killed or injured by trains and for damage caused by sparks from railway engines. In the former case an owner of animals so killed or injured on the Government railways may recover damages unless negligence or wilful act or omission is proved against him or his agent. The other provision renders the Crown liable for damage to property caused by fire started by a railway locomotive working on the railway, provided that if it be shown that modern and efficient appliances have been used and that the officers or servants of His Majesty have not otherwise been guilty of any negligence the total amount of compensation recoverable shall not exceed \$5,000. Chapter 32 is an act respecting the Government guaranteed bonds of the Grand Trunk Pacific Railway Company. Chapter 37 makes a verbal amendment in the I. and P. E. Employees' Provident Fund act, ch. 22 1907. Chapter 44 authorizes the sale to the Grand Trunk Railway of a portion of Major's Hill park, Ottawa, as an hotel site. Chapter 54 authorizes the construction of a branch line of the Prince Edward Island Railway from Harmony to Elmira. Chapter 59 authorizes the Governor in Council, pursuant to the terms of an existing agreement, to take over the whole undertaking, assets, property and franchises of the

Acts of
Parliament
relating to
railways.

Quebec Bridge and Railway Company and to proceed with the re-construction and completion of the Quebec bridge by means of parliamentary appropriations made for the purpose. Chapter 60 repeals section 7 of chap. 38 of 1907, which provided for the deposit of mortgages to secure bonds on rolling stock. By chapter 61 telegraphs and telephones are brought under the jurisdiction of the Board of Railway Commissioners, whilst chapter 62 amends the Railway act in respect of the constitution of the board and provides for the appointment of additional commissioners. Chapter 63 authorizes the granting of subsidies in aid of railway construction for the lines of railway mentioned in the act.

Amongst the remaining acts dealing with miscellaneous subjects may be mentioned the following. Chapter 19 amends the Customs act by the addition of provisions requiring the production of way bills and imposing duties on the costs of equipments supplied and repairs made in foreign ports to vessels employed in the coasting trade of Canada where such equipments have been supplied or repairs made within one year of the arrival of the vessels at any Canadian port. Chapter 24, the Dry Docks Subsidies act, which replaces chapter 116, R. S. 1906, increases the limit of the subsidy payable for the construction of new docks from \$30,000 to \$45,000 and for the extension of existing docks from \$10,000 to \$15,000. Chapter 26 amends the Dominion Elections act and enacts provisions intended to guard against the exercise of undue influence in election contests. Chapter 30, the Gold and Silver Marking act of 1908, replaces the act of similar title which was passed in 1906, but which had not been brought into operation. The new act differs from the original in important respects, and the schedule of date marks from 1906 to 1925 which was part of the act of 1906 does not reappear in the act of 1908. Chapter 42 authorizes the payment to the provinces of Saskatchewan and Alberta of part of the Assurance fund under the Land Titles act, 1894. Chapter 43 provides for the renewal of bounties on lead mined in Canada until January 30 1913, and chapter 52 for the payment of bounties on crude petroleum produced in Canada. Amendments are made in the Chinese Immigration act (chapter 14), the Criminal Code (chapter 18), the Inspection and Sale act as regards grain (chapter 36), the Irrigation act (chapter 38), the Land Titles act in respect of church lands (chapter 41), the Manitoba Grain act (chapter 45), the Meat and Canned Foods act of 1907 (chapter 47), the Canada Shipping act (chapters 64 and 65), the Canada Temperance act (chapter 71), the Yukon act and the Yukon Placer Mining act (chapters 76 and 77).

On March 7 Mr. Mackenzie King, Deputy Minister of Labour, was appointed a commissioner to investigate and report upon the losses sustained by the Chinese population of Vancouver, B. C., on the occasion of the riots in that city in September.

1907. Mr. King opened an inquiry at Vancouver on May 25, which lasted until June 5, and which resulted in the settlement of the claims of the Chinese residents by payment to them of sums amounting to \$26,990, including an allowance of \$1,000 on account of legal expenses.

In the course of this inquiry the presentation of claims by two manufacturers of opium drew attention to the existence in British Columbia of a traffic in opium the extent of which had not been realised; and it was stated that opium was being sold in Canada for consumption by white people as well as by Chinese and other orientals. Mr. King in his report on the Chinese claims in connection with the riots at Vancouver took occasion to refer seriously to this evil as follows:

Regarding it as an anomaly that the Government of Canada should under any circumstances be held bound to make good pecuniary losses in an industry so inimical to our national welfare, and having regard to the discretion given me by my commission, I feel it my duty respectfully to submit that the operations of the opium industry in Canada should receive the immediate attention of the Parliament of the Dominion and of the several legislatures with a view to the exactment of such measures as will render impossible, save in so far as may be necessary for medicinal purposes, the continuance of such an industry within the confines of the Dominion, and as will assist in the eradication of an evil which is not only a source of human degradation but a destructive factor in national life.

On July 1 Mr. King presented to the Minister of Labour a further report on "The need for the suppression of the opium traffic in Canada" in which he stated that in the coast cities of Vancouver, Victoria and New Westminster there were at least seven factories carrying on an extensive business in opium manufacture, their combined annual gross receipts for 1907 being estimated at between \$600,000 and \$650,000; whilst the value of crude opium imported during the nine months of the fiscal year 1906-07 was \$262,818 as compared with \$261,943 for the preceding twelve months. He further expressed the opinion that the only effective means of suppressing this traffic was by the absolute prohibition of the importation, manufacture and sale of opium, save in so far as an exception might be necessary for medicinal purposes only.

On the 20th of the same month the Dominion Parliament passed a short act of two sections (chapter 50) which, for Canada, absolutely prohibits the importation, manufacture and sale of opium for other than medicinal purposes. By section 1, persons infringing the act are rendered guilty of an indictable offence and are liable to imprisonment for three years, or to a penalty not exceeding \$1,000 and not less than \$50, or to both. By section 2 possessors of opium for other than medicinal purposes were allowed a period of six months within which to deposit their stocks in a customs bonded warehouse for export, thus providing that all existing stocks of the drug should be sent out of the country. As noted on page xlvii, Canada was represented by Mr. King upon the joint international commission which

Suppression
of opium
traffic in
Canada.

Opium traffic

Columbia.

Sale of opium
rendered ille-
gal, except
for medicinal
purposes.

met at Shanghai early in 1909 for the purpose of investigating the opium trade and the opium habit in the far east.

Tercentenary
of Quebec.

Of Canadian events in the year 1908 none evoked more widespread interest than the commemorative celebrations in honour of the 300th anniversary of the founding of Quebec in 1608 by Samuel de Champlain and of the heroic encounters between the English and French forces in 1759 and 1760, known historically as the battles of the Plains of Abraham. Graced by the presence of Royalty and favoured by fine weather, nothing was wanting to ensure the complete success of the national festivities, which took place at Quebec from July 20-31 amidst every demonstration of patriotic enthusiasm.

National
Battlefields
Commission.

Towards the end of 1907 His Excellency Earl Grey inaugurated a movement towards the acquisition of the sites of the battles with a view to their conversion into a national park and public drive-ways, and he subsequently became patron of the Champlain Tercentenary and Quebec Battlefields Association which was formed to promote this object and to which was entrusted many of the local arrangements in connection with the celebrations. Two acts of the Dominion Parliament passed in the session of 1908 authorized the execution of this project. Chapter 57, passed on March 17, provided for the acquisition of the historic battlefields and their conversion into a national park by a National Battlefields Commission. The commission was constituted of five members appointed by the Governor in Council, and provision was made for the appointment of additional members by other British Governments contributing not less than \$100,000 for the purposes of the commission. A parliamentary appropriation of \$300,000 was made to the commission, who were also entrusted with the organization of suitable celebrations of the tercentenary of the founding of Quebec and the dedication of the battlefields. Chapter 58, passed on July 20, legalized the transfer of the properties acquired for the national park which are described particularly in the schedule appended thereto. The five commissioners appointed by the Governor in Council are Sir George Garneau (chairman) Col. G. T. Denison, Sir George Drummond, the Hon. A. Turgeon and Mr. Byron E. Walker. The governments of Ontario and Quebec having each contributed \$100,000 are represented on the commission by Lt.-Col. the Hon. J. S. Hendrie for Ontario and the Hon. L. A. Taschereau for Quebec. Mr. J. M. Courtney was appointed as treasurer and Mr. H. J. J. B. Chouinard and Dr A. G. Doughty as joint secretaries.

of the Quebec
Battlefields.

Other subscriptions included those of Great Britain, \$50,000, New Zealand, \$5,000, Nova Scotia, Manitoba, Saskatchewan, Alberta and British Columbia, \$10,000 each, New Brunswick, \$7,500 and Prince Edward Island, \$2,500. Altogether, the fund raised from public and private sources in connection with the tercentenary celebrations and the acquisition of the battlefields is expected to amount to \$830,000 or thereabouts.

On the occasion of the celebrations at Quebec Canada was honoured by the presence of many distinguished official representatives of other countries in the British Empire and of the great and friendly republics of the United States and France,—countries whose citizens share with Canada the glorious heritage of the past and who are happily bound to her by indissoluble ties of kindred origin and present friendship. His Majesty the King was represented by his son, the heir to the throne, H.R.H. the Prince of Wales, whose presence in this capacity lent to the proceedings a distinction which nothing else could give. In addition to the members of His Royal Highness's personal staff, Great Britain was represented by the Duke of Norfolk, K.G., hereditary Earl Marshal of England, and Field Marshal Earl Roberts, K.G. Lord Roberts was able subsequently to visit Montreal and Ottawa, where he was welcomed with delight by the citizens and by the veteran soldiers who served under him in South Africa. Australia was represented by the Earl of Dudley, New Zealand by the Earl of Ranfurly, South Africa by the Right Hon. Sir Henry de Villiers and Newfoundland by the Hon. J. G. Pitts. There were also present the lineal descendants and members of the families of the illustrious soldiers who led the armies of England and France on the battlefields of Quebec, viz. Mr. George Wolfe, Comte Bertrand de Montcalm, the Marquis de Lévis, the Marquis de Lévis Mirepoix, Captain the Hon. Arthur Murray, M.P., Lord Lovat and Captain the Hon. Dudley Carleton. The United States was represented by Mr. Charles W. Fairbanks, Vice-President of the Republic, and France by Admiral Jauréguiberry, M. Louis Herbette, Conseiller d'Etat, M. de Loynes, Consul General of France at Montreal and by the Mayor of Brouage, Champlain's birthplace.

Official representation of other countries.

The British fleet was represented by eight war vessels which anchored in the St. Lawrence in front of Dufferin terrace and the citadel of Quebec. They consisted of the four battleships Exmouth, Albemarle, Russell and Duncan, of the two cruisers Venus and Arrogant, and of the two armoured cruisers Indomitable and Minotaur. The Prince of Wales arrived in the Indomitable, to which the Minotaur acted as escort. There were also at Quebec the French battleship Léon Gambetta, the cruiser Amiral Aube and the United States battleship New Hampshire.

The British, French and American fleets.

Brief mention must be made of the principal items of the programme which was carried out in honour of Champlain as founder of Quebec and of the dedication of the battlefields as a national park. The ceremonies on Thursday, July 23, were in special honour of the memory of Champlain. A facsimile of the "Don de Dieu," the vessel in which he crossed the Atlantic, formed part of an interesting historical representation of the principal scenes connected with his landing and with the founding of Quebec.

Programme of the celebrations.

Amongst a large number of congratulatory cablegrams read
 Message from on this occasion were the following messages exchanged between
 H.M. the the Government of Canada and His Majesty the King :

MESSAGE TO H. M. THE KING.

The people of Canada assembled to celebrate the tercentenary of the foundation of Quebec present their humble duty to your Majesty and desire to thank your Majesty for the honour done them by the presence here to-day of H.R.H. the Prince of Wales. They see in this gracious act a fresh proof of the interest which your Majesty has ever manifested towards your Majesty's Canadian subjects, who on this great and historic occasion hasten to renew the expression of their unalterable devotion to your Majesty's throne and person.

REPLY FROM H. M. THE KING.

Please convey to the Mayor and citizens of Quebec my congratulations and good wishes on the joyous celebration of the three hundredth anniversary of the foundation of their city by Samuel de Champlain. I am much gratified to learn of their cordial reception of the Prince of Wales, whom I have sent to represent me on this great occasion. I received with pleasure the renewed assurances of loyalty on the part of my Canadian subjects, in whose welfare I am deeply interested, and to whom I wish an ever increasing measure of progress and prosperity.

In the speech from the throne on the prorogation of the Imperial Parliament, December 21, H. M. the King stated that "the affectionate reception given to my son by all classes of my Canadian subjects touched me deeply, and I learned from him with great satisfaction of the loyalty and enthusiasm everywhere displayed upon that unique and historic occasion."

Historical
pageants.

Eight pageants representing scenes connected with the early history of Canada and Quebec were arranged by Mr. Frank Lascelles. They were repeated on six occasions and formed one of the most instructive features of the celebrations. The Prince of Wales attended a state performance of these pageants on Saturday, July 25. A grand naval and military review was held by His Royal Highness on Friday, July 24, when about 12,000 Canadian soldiers and 10,000 sailors from the British, American and French warships marched past. At the close of this review the Prince ceremonially handed over to the Governor General of Canada the title deeds of the Plains of Abraham and Ste. Foye. On Sunday, July 26, impressive services were held in the Anglican cathedral of the Holy Trinity, and a solemn mass was celebrated on the Plains of Abraham. The Prince of Wales inspected the assembled ships of Great Britain, France and the United States on Saturday, July 25, and on the evening of Monday, July 27, the combined fleet gave a naval display followed by illuminations and fireworks. These and many other public and private social functions combined to render the Quebec tercentenary celebrations of July, 1908, one of the most memorable in the annals of the Dominion of Canada.

Naval and
military
review.

Arising out of the celebrations at Quebec the Dominion of
 Presentation Canada has acquired several additional historical mementoes of
 to Canada of great interest. H.R.H. the Prince of Wales presented to the

Dominion a mahogany chair, which was used by Wolfe on board H. M. S. Neptune when sailing to Canada and probably also at Quebec. Lord Lovat, who as chief of the clan Fraser represented at Quebec the descendants of the valourous soldiers bearing that name who fought under Wolfe, has since, with great generosity and public spirit, presented to the Dominion a valuable oil painting depicting the death of General Simon Fraser at the battle of Saratoga in 1777. In a letter to Dr. Doughty, Dominion Archivist, Lord Lovat states that "the picture represents Simon Fraser who at the seige of Quebec answered the challenge of the French in the French language. He served in the Fraser Fencibles as a lieutenant and afterwards became General. The picture was painted by Sir Benjamin West, P.R.A., and was, in conjunction with another picture which I have at Beaufort, presented by the officers to General Fraser's widow." Apart from its historic interest the picture is considered to be an excellent example of the artist's work. Another valuable relic is the scarlet coat which formed part of the military uniform worn by General Sir Isaac Brock at Queenston Heights, where he fell in battle on October 13 1812. This was presented by Miss Tupper of Guernsey, a great-niece of the celebrated soldier. These souvenirs will be carefully preserved with the large collection of historical records now stored in the Archives branch of the Department of Agriculture.

The growing importance of Canadian agricultural products in the markets of the world, and especially of the wheat crop, has given rise to numerous attempts to forecast the results of the harvest on the part of those commercially interested. Estimates of crop conditions and yields have been issued for many years in some of the provinces, but previously to 1908 nothing of the kind applicable to the whole of Canada has been officially available. In order therefore to remove this important matter as far as possible from the region of guesswork and speculation, the Department of Agriculture commenced in June last the issue of reports on the condition of crops and live stock throughout Canada, such reports being based upon data collected by the Census and Statistics Office from practical agricultural correspondents in all parts of the Dominion, who willingly placed their services at the disposal of the Government.

In reporting upon crops during growth and upon live stock it was necessary to choose a method of expression capable of conveying a clear idea of present condition and of lending itself to purposes of comparison. The method of expression adopted as fairly fulfilling these requirements is an adaptation of that which has long been employed by the crop reporting board of the United States Department of Agriculture, viz. a numerical percentage above or below a standard condition represented as 100. The term 'standard condition' is taken as denoting a full crop of good quality and a healthy and a thrifty state of live stock. Correspondents were accordingly asked to report under

historical me-
mentoes.

Crop report-
ing in Canada.

Condition of
crops and live
stock expres-
sed by numeri-
cal percent-
ages.

four grades of condition, viz. "good," represented by any figure from 75 to 100 or over; "average," from 50 to 74; "fair", from 25 to 49 and "poor", below 25.

Owing to a favourable spring the condition of crops and live stock when first reported upon at the end of June was of high promise; but, as in the case of the two previous seasons, summer drouths ensued affecting many parts of Canada, and the condition consequently both of crops and live stock underwent gradual deterioration as the season advanced. The following statement shows with respect to the principal cereals how this deterioration was measured in the reports issued during growth:

Crop	Per cent of standard condition			Average quality
	June 30	July 31	Aug. 30	Sept. 30
Wheat.....	84	76	74	75
Oats	90	81	75	75
Barley.....	83	80	72	71
Rye.....	92	78	70	73
Corn for husking	—	—	83	82
Fodder corn.....	—	—	90	92

Forecasts of
yields.

Forecasts of the yields anticipated from the principal crops were published by the Census and Statistics Office for the months ended July 31, August 31, and September 30, and the final results, estimated from the actual threshing returns, were published as for the month ended November 30. The following statement shows how these forecasts had to be successively modified owing to the adverse influence of the season:

Crop	First estimate July 31 ¹	Second estimate Aug. 31	Third estimate Sept. 30
	bush.	bush.	bush.
Wheat.....	130,263,000	124,690,000	115,651,000
Oats.....	269,254,000	269,944,000	267,651,000
Barley.....	51,690,000	49,488,000	50,723,000
Mixed grains	18,865,000	19,380,000	19,113,000
Corn.....	—	24,936,000	21,007,000
	tons	tons	tons
Hay and clover.....	8,780,000	11,128,000	11,706,000
Fodder corn.....	—	2,743,000	2,815,000

(¹) Excluding Maritime provinces and B.C.

Fortunately the drouth set in too late to affect very materially the yield of hay and clover, which moreover was as a rule saved in good condition. Another satisfactory feature of the

season was the excellent crops of corn both for husking and for fodder.

The report published by the Census and Statistics Office for the month ended November 30 showed that an area of 27,505,663 acres of field crops yielded in 1908 a harvest which, computed at average local market prices, had a value of \$432,534,000. The details of area, yield, weight per measured bushel and values for each kind of crop are shown in the following table for the whole of Canada with the exception of British Columbia, where data upon which to base estimates do not at present exist:

Crops	Area	Yield per acre	Total yield	Weight per measured bushel	Average price per bushel	Total value
	ac.	bu.	bu.	lb.	\$	\$
Fall wheat. . .	770,400	24·40	18,798,000	60·30	0·860	16,253,000
Spring wheat.	5,839,900	16·03	93,636,000	58·51	0·800	74,975,000
Oats.....	7,941,100	31·64	250,377,000	35·47	0·390	96,489,000

Potatoes.....	503,600	132·00	73,790,000	—	0·470	34,819,000
Turnips and other roots..	271,443	373·00	101,248,000	—	0·170	17,532,000
		tons	tons		perton	
Hay and clover	8,210,900	1·39	11,450,000	—	9·960	121,884,000
Fodder corn..	259,770	11·27	2,928,000	—	4·030	11,782,000
Sugar beets...	10,800	10·07	109,000	—	5·310	578,000

The total yield of wheat was estimated at 112,434,000 bushels, as compared with 91,333,271 bushels in 1907 and 136,000,000 in 1906. The principal grain crops of the country are wheat, oats and barley, which aggregate in area 16,297,100 acres and in value \$209,070,000; and the principal fodder crop is hay and clover, which off an area of 8,210,900 acres had a value of \$121,884,000. Rye, peas, buckwheat, mixed grains and flax, grown on 1,525,750 acres, had a value of \$23,044,000; the hoed or cultivated crops of beans, potatoes, turnips and other roots, corn and sugar beets, grown on 1,471,913 acres, had a value of \$78,536,000. Fall wheat with a yield

Harvest
results of
1908.

Yields and
values of
crops of 1908.

of 24.40 bushels per acre showed a value of \$21.10, and spring wheat with 16 bushels a value of \$12.84 per acre. The averages for both crops are 17 bushels and \$13.80 per acre. The total value of the wheat harvest in the Northwest provinces was \$72,424,000 and in the rest of the Dominion \$18,804,000. For the other crops of the Dominion oats showed averages of 31.64 bushels and \$12.15 per acre, barley 26.79 bushels and \$12.23, rye 17.05 bushels and \$12.57, peas 17.09 bushels and \$14.46, buckwheat 24.55 bushels and \$14.47, mixed grains 32.73 bushels and \$17.43, flax 10.76 bushels and \$10.46, beans 27 bushels and \$33.08, corn for husking 62.45 bushels and \$32.32, potatoes 132 bushels and \$69.14, turnips and other roots 373 bushels and \$64.58, hay 1.39 tons and \$14.84, fodder corn 11.27 tons and \$45.35, and sugar beets 10.07 tons and \$53.52. The value of all field crops in Prince Edward Island was \$9,408,000, in Nova Scotia \$20,084,000, in New Brunswick \$18,042,000, in Quebec \$80,896,000, in Ontario \$185,308,000, in Manitoba \$66,660,000, in Saskatchewan \$37,614,000, and in Alberta \$14,522,000. The figures for British Columbia are not available. The average value of field crops for the Dominion in the year was \$15.72 per acre, and the average value, computed on an estimated population of 6,940,000 at July 1, was \$62.32 per head.

At the end of December statistics were collected from correspondents as to the value of farm lands per acre and as to the average wages of farm help including board. The results are given in the following table:

Value of farm lands and of wages of labour.

Numbers of live stock in 1908.

According to the data collected from correspondents on June 30 the numbers of live stock in Canada were then as follows: Horses 2,118,165, milch cows 2,917,746, other cattle 4,629,836,

sheep 2,831,404 and swine 3,369,858. As compared with 1907 these figures represented increases of 195,075 horses, 180,284 milch cows, 235,482 other cattle and 48,185 sheep, whilst swine were less by 75,424.

The following statement shows the percentage condition of live stock monthly from June 30 to November 30, 1907, representing a healthy and thrifty state as explained above :

Live stock	Per cent of standard condition				
	June 30	July 31	Aug. 31	Sept. 30	Nov. 30
Horses	94	86	86	81	86
Milch cows	94	85	84	77	83
Other cattle	87	83	84	79	83
Sheep.....	83	78	83	82	81
Swine.....	85	80	83	81	86

The average values of farm animals and wool were reported at the end of December as shown in the table on page xxxii.

The total value of farm animals computed on the foregoing averages and the number of animals on farms in June was \$531,000,000. The value of horses is put down in round numbers as \$264,000,000, of milch cows \$99,000,000, of other horned cattle \$122,000,000, of sheep \$15,000,000 and of swine \$31,000,000, and the average values \$124.74 for horses, \$34 for milch cows, \$26.35 for other horned cattle, \$5.23 for sheep and \$9.28 for swine. The June price of wool for the Dominion was 18 cents per pound.

Brief summaries of the reports on the crops and live stock of Canada have been communicated to the public through the daily and weekly press as available month by month, and the complete details have been published in the Census and Statistics Monthly, the first number of which appeared in July for June. Notes on the work of the various branches of the Department of Agriculture, crop reports from other countries, prices of agricultural produce in British markets, reports of the proceedings of agricultural scientific gatherings and miscellaneous statistical information relating to agriculture are also leading features of this publication.

The International Agricultural Institute which has been organized at Rome by international conferences convened by His Majesty the King of Italy has now received the formal adhesion of 45 countries of the world, including the Dominion of Canada which formally joined in 1907. Its main object will be the collection, co-ordination and prompt distribution of complete statistical information as to the world's crops and as to

agricultural experiments and methods of production. The King of Italy has endowed the Institute with an estate yielding a

revenue of \$60,000 per annum, and in addition each participating country will contribute a share of the expenses of maintenance. Suitable buildings for the work of the Institute have been erected in Rome. At the preliminary meetings held in Rome during 1908, Canada was represented by Dr. J. G. Rutherford, Veterinary Director General and Live Stock Commissioner, and Mr. Keville Doherty, private secretary to the Minister of Agriculture; and at the general assembly of national representatives, held in Rome from November 27 to December 1, Canada was.

represented by the Minister of Agriculture himself, the Hon. Sydney Fisher. At this gathering the scheme for the organization of the Institute was definitely adopted, and the principal officers were chosen, including the Italian Minister of Foreign Affairs as President and Mr. Sydney Fisher as First Vice-President, appointed for the term of three years.

A census of the manufacture of butter, cheese and condensed milk in Canada for the calendar year 1907 was taken through the post during 1908, the form of schedule used for the purpose having been passed by Order in Council on January 17. The results were published as Bulletin VII of the Census and Statistics Office, entitled Dairy Production 1907, and the statistics of this bulletin were compiled from the returns of 3,516 butter and cheese factories and seven factories producing condensed milk and cream. The value of land, buildings and plant was returned as \$8,564,440 and of working capital as \$1,641,787. The number of persons employed in factories during the year 1907 was 6,586 and the amount paid for salaries and wages was \$1,811,875. The quantity of butter made in factories during 1907 was 45,930,294 lb. with a value of \$10,949,062; the quantity of cheese made was 204,788,583 lb. with a value of \$23,597,639; and the quantity of condensed milk and cream made was 12,176,135 lb. with a value including all products of condenseries of \$910,842. The value of all dairy products at factories was \$35,457,543 in 1907, \$33,257,674 in 1905 and \$29,731,922 in 1900. This was a gain at the average rate of 11.86 per cent in the five years 1900 to 1905, of 6.61 per cent in the two years 1905 to 1907 and of 19.26 per cent in the seven years 1900 to 1907. In consequence of the drouth prevailing in some localities the dairying season of 1907 was not a good one and production was short.

Owing to objections raised by the Senate of the French Parliament to certain items in the proposed tariff under the convention respecting the commercial relations between Canada and France, signed on September 19 1907, the commercial treaty between the two countries has not yet been ratified. Modifications of the treaty have now been agreed to by means of a supplementary convention and this awaits approval by the Canadian and French Parliaments.

The total foreign trade of Canada for the calendar year 1908 amounted to \$558,023,454, exclusive of coin and bullion, as compared with \$632,405,645 in 1907. Imports in 1908 amounted to \$292,877,647, as compared with \$378,369,161 in 1907 and exports to \$265,145,807 in 1908, as compared with \$254,036,484 in 1907. Trade with Great Britain reached a total of \$211,788,891, as compared with \$223,516,536 in 1907. Imports from Great Britain in 1908 were \$70,718,929, as compared with \$97,411,916 in 1907, and exports to Great Britain in 1908 were \$141,069,962, as compared with \$126,104,620 in 1907.

Business failures in Canada and the United States.

Bradstreet's review.

Bradstreet's review of failures in Canada and the United States in 1908 shows the number to be 15,759, out of a total in business of 1,606,688. The record is for individuals, firms and corporations in mercantile, banking and financial occupations whose failure resulted in a loss to creditors, and is exclusive of professional men, farmers, stockbrokers and real estate dealers. In Canada the number of failures was 1,715 out of a total of 118,875 in business or 0·14 per cent, and in the United States the failures were 0·94 per cent of a total of 1,487,813 in business.¹ The previous three years show a percentage of failures in Canada of 0·12 in 1907, of 0·11 in 1906 and of 0·12½ in 1905, compared with 0·71 in 1907, 0·67 in 1906 and 0·74 in 1905 in the United States. The following table shows the assets and liabilities of business houses which failed in Canada and the United States in the four calendar years 1905–1908:

Year	Canada		United States

The ratio of assets to liabilities in Canada was 1 to 2·11 in 1905, 1 to 2·19 in 1906, 1 to 2·22 in 1907 and 1 to 2·26 in 1908; in the United States the ratio was 1 to 1·87 in 1905, 1 to 2·01 in 1906, 1 to 1·33 in 1907 and 1 to 1·77 in 1908. Of the 1,715 failures in Canada in 1908, 312 were due to incompetence, 740 to lack of capital, 101 to fraud, 56 to neglect, 48 to inexperience, and the rest to failures of others, unwise credits, extravagance and specific conditions; whereas out of 14,044 failures in the United States in the same year 3,030 were due to incompetence, 4,804 to lack of capital, 1,606 to fraud, 299 to neglect, 574 to inexperience and the rest to the other causes mentioned above. More than one half of the failures in both countries (57·3 p.c.) had less than \$5,000 of liabilities, and the figures indicate that the chief strain came upon traders who had over \$5,000 but less than \$20,000 liabilities.

Dun's review. Dun's review gives the number of commercial failures in Canada in 1908 as 1,640, with assets of \$12,208,113 and liabilities of \$14,931,790; and in the United States as in number 15,690, with assets of \$146,199,325 and liabilities of \$222,315,684,

¹ Bradstreet's statistics for Canada include those of Newfoundland and the French islands of St. Pierre and Miquelon.

classified by number as 3,827 manufactures, 11,272 as trading and 591 as other commercial occupations. There were in addition to these 180 bank failures in the United States with liabilities of \$123,126,956 according to Dun, as against two in Canada with liabilities of \$2,137,224.

The statistics of chartered banks in Canada show that in the 41 years 1868-1908 the capital paid up rose from \$30,507,447 to \$96,147,526, the liabilities from \$45,144,854 to \$762,077,184 and the assets from \$79,860,976 to \$941,290,619. The totals on deposit rose during the same period from \$33,653,594 to \$658,367,015 and the notes in circulation from \$9,350,646 to \$71,401,697. The deposits in banks by the public in Canada payable on demand increased from \$104,424,203 in 1902 to \$169,721,755, and payable after notice from \$244,062,545 to \$406,103,063. The total deposits by the public payable on demand and after notice increased from \$348,486,748 in 1902 to \$575,824,218 in 1908, being \$62.93 per head of the population in the first of these years and \$82.92 in the second. Including deposits elsewhere than in Canada and balances due to Dominion and provincial governments, the whole amount of deposits in the banks increased from \$390,370,493 in 1902 to \$658,367,015 in 1908. These figures are in each case averages computed from the monthly returns. The assets at the end of December 1908 aggregated \$1,001,352,290.

The statistics of Inland Revenue for forty years show a fairly constant average consumption of liquors and tobacco in Canada. There was an increase in the quantity of beer consumed from 2.290 gallons per head in 1869 to 3.488 gallons in 1908, and of tobacco from 1.755 lb. in 1869 to 2.257 lb. in 1908. The average of wine consumed in the country rose from 0.115 gallon per head in 1869 to 0.119 gallon in 1908, or four-thousandths of a gallon in forty years. Distilled spirits on the other hand show a decreased consumption of 0.159 gallon in the same period, being from 1.124 gallon per head in 1869 to 0.965 gallon in 1908.

The gross debt of Canada at the end of March 1908, as shown by the table at page 348, was \$408,207,158 and the assets were \$130,246,298, leaving the net debt at that date to be \$277,960,860. The net debt per head of population in 1871 was \$22.29, in 1881 it was \$35.93, in 1891 it was \$49.20, in 1901 it was \$49.59, and computed on the estimated population at the end of March 1908 it was \$40.49. The receipts on consolidated fund account (page 354) grew from \$13,687,928 in the fiscal year ended June 30 1868 to \$96,055,417 in the fiscal year ended March 31 1908 and the aggregate receipts in the period of 41 years were \$1,586,526,426. In 29 years of the 41 years under Confederation the receipts show a surplus of \$153,432,157, and in 12 years they show a deficit of \$23,069,589. The

actual surplus of receipts over expenditure in the whole period of 41 years ended March 31 1908 was therefore \$130,362,568.

The fifth number of the Statistical Abstract for the British Empire, issued January 1909, contains the principal statistics of the United Kingdom and the Colonies for the fifteen years 1893-1907 relating to area, population, trade, shipping and production and consumption of staple articles. The area of the Empire in 1907 was approximately 11,332,000 square miles, and of this large extent Canada comprises 3,745,574 square miles, inclusive of 125,755 square miles of lakes and rivers, the Australian Commonwealth 2,974,581 square miles, British India 1,097,821 square miles, the Indian Native States 675,267 square miles, and the United Kingdom with the Isle of Man and the Channel Islands only 121,393 square miles. The census population of the Empire was 303,696,000 in 1881, 345,364,000 in 1891 and 385,357,000 in 1901. In the twenty years 1881 to 1901 the population of the United Kingdom grew from 34,885,000 to 41,459,000, of British India (including the Native States) from 253,861,000 to 294,317,000, and of the other British colonies and possessions from 14,950,000 to 49,581,000. The population of London grew in the same period from 3,830,297 to 4,536,541, of Liverpool from 623,940 to 684,958, of Manchester from 462,303 to 543,872, of Birmingham from 436,971 to 522,204, of Leeds from 309,119 to 428,968, of Sheffield from 284,508 to 380,793, of Bristol from 255,409 to 328,945, of Glasgow from 577,419 to 761,709, of Edinburgh from 235,670 to 316,837, of Belfast from 208,122 to 349,180, of Dublin from 273,282 to 290,638, of Calcutta from 612,307 to 847,796, of Bombay from 773,196 to 776,006, of Madras from 405,848 to 509,346, of Sydney from 227,166 to 487,932, of Melbourne¹ from 282,947 to 496,079, of Montreal² from 155,238 to 267,730 of Toronto from 96,196 to 208,040, of Cape Town from 34,664 to 169,641 (in 1904) and of Hong Kong from 110,942 to 210,447.

The total trade of the British Empire with foreign countries in 1898 was £469,587,000 imports and £335,133,000 exports, and in 1907 it was £657,489,000 imports and £579,317,000 exports. The trade of the United Kingdom with the Colonies and Possessions was £126,924,000 imports and £99,484,000 exports in 1898 and £198,051,000 imports and £168,005,000 exports in 1907. To these figures may be added for inter-colonial imports £35,856,000 in 1898 and £64,481,000 in 1907, making the total foreign and inter-imperial trade to be £1,066,984,000 in 1898 and £1,667,343,000 in 1907. The tonnage of sailing vessels on the register of the British Empire at the end

¹ But this is Greater Melbourne, which now comprises ten cities, eight towns, three boroughs, one shire and parts of 13 others, with an aggregate area of 163,480 acres.

² The Abstract gives Montreal an estimated population of 450,000 and Toronto 335,000 for 1907.

of 1898 was 3,350,430 tons and at the end of 1907 2,344,824 tons; and of steam vessels 7,110,213 tons in 1898 and 10,838,531 tons in 1907. The increase in the tonnage of both classes of vessels in the period of ten years was therefore 2,722,712 tons. A statement of the production of principal minerals in the British Empire shows that the quantity of coal produced in 1898 was 217,311,000 tons and in 1907 304,722,000 tons, of iron ore 14,418,000 tons in 1898 and 17,029,000 tons in 1907, of pig iron 8,675,000 tons in 1898 and 10,680,000 tons in 1907, of diamonds £4,573,000 in 1898 and £8,981,000 in 1907, of gold £17,900,000 in 1898 and £50,500,000 in 1907, of silver £858,000 in 1898 and £2,988,000 in 1907, of copper £1,757,000 in 1898 and £6,647,000 in 1907, and of tin £3,500,000 in 1898 and £10,500,000 in 1907. The production of raw sugar in 1898 was 54,300,000 cwt. and in 1907 55,700,000 cwt. There are many other interesting tables in the Abstract which need not be referred to here, and unfortunately too many of them are incomplete for the Empire, especially as regards the Colonies. But most of the Colonies are now getting into line with statistical information.

Mineral production.

Raw sugar.

According to the railway statistics of the Department of Railways and Canals the mileage of Canadian railways was increased by 514 miles to 22,966 miles during the year ended June 30 1908, as compared with 1,099 the increase during 1907. There were however 4,327 miles of line reported as being actually under construction on June 30 1908, and it is known that 750 miles were put in operation shortly after that date.

Mileage of Canadian railways.

An analysis of railway capital shows that outstanding stocks on June 30 1908 amounted to \$607,425,349 and of funded debt to \$631,869,664, representing a total railway capital of \$1,239,295,013. These figures indicate an increase for 1908 over 1907 of \$18,856,758 in stocks and \$48,500,447 in funded debt—usually classified as bonds—a total increase for the year of \$67,357,205. If to the amount of stocks and funded debt as given above be added the cost of the Intercolonial railway, the expenditure on the Transcontinental and the amount of railway subsidies, aggregating \$325,345,031, the grand total is \$1,564,640,044 as the capital invested in Canadian railways in addition to the value of many millions of acres of land which have been granted in aid of railway construction.

Capital invested in Canadian railways.

Industrial disputes during 1908 showed a large decrease, the number being only 69 as against 149 in 1907 and 138 in 1906. Unfortunately owing to two strikes involving large numbers of employees the decrease in the number of workpeople affected did not correspond with the reduced number of disputes, and the approximate number of persons affected by trade disputes in 1908 was 26,232, compared with 34,694 in 1907 and 26,014 in 1906. The loss of time in working days was approximately 708,194 in 1908, 613,986 in 1907 and 489,775 in 1906. Of the

Industrial disputes of the year.

69 disputes in 1908 43 were settled in favour of employers, 12 in favour of employees, nine were settled by compromise and the remaining five were either unsettled or the terms of settlement were not known at the close of the year.

Strike on
the Canadian
Pacific
Railway.

The two principal disputes of the year were a strike of machinists and carmen of the Canadian Pacific Railway and a strike of cotton mill hands which extended to many places in the province of Quebec. The dispute between the Canadian Pacific Railway Company and its employees arose out of the application by the company to the western lines of new rules affecting machinists and boiler makers. The findings of a board of conciliation, appointed under the Industrial Disputes Investigation act, 1907, were accepted by the company but not by the men, and on August 5 8,000 men in the mechanical and car departments of the company throughout the Dominion went out on strike until October 5, when the award of the conciliation board was accepted and the men resumed work.

Strike of
cotton oper-
atives in
Quebec.

The strike of cotton mill hands in Quebec, which commenced on May 4, was occasioned by a reduction of ten per cent in wages which the mills claimed was necessary to meet changed conditions in the cotton industry. At the end of May about 6,000 cotton-factory employees were idle. The strike lasted until June, when many of the strikers returned to work pending an inquiry into the cotton industry promised on behalf of the Dominion Government. On June 29 the Deputy Minister of Labour was appointed as commissioner to investigate and report upon the nature and causes of the disputes affecting the cotton trade in Canada. His report presented on September 15 states that the reduction of wages which led to the strike was an economic consequence of the general trade and financial depression which has affected the cotton industry in all parts of the world. It contains suggestions for the future preservation of industrial peace and suggests that the laws relating to the employment in cotton mills of women and children should be amended.

Industrial
Disputes
Investigation
act.

In 25 disputes boards of conciliation were appointed under the Industrial Disputes Investigation act 1907, and of these all but one—the previously mentioned dispute between the Canadian Pacific Railway and its mechanics—were settled without the occurrence of a strike or lockout. Four other disputes were under consideration by boards of conciliation at the end of the year. One of them which related to an industry not of a public utility was brought under the act by joint consent of the two parties interested.

Statistics of
mineral
production.

According to a preliminary report of the Department of Mines the total value of the mineral products of Canada in 1908 is estimated at \$87,323,849, as compared with \$86,842,765 in 1907. In the aggregate therefore the industry has more than held its own despite large decreases in the prices of metals. Had these remained at the same average prices in 1908 as in 1907 the

total production of Canada in 1908 would have been worth over \$8,000,000 more. A comparison between 1908 and 1907 shows that copper has decreased in price 34, lead 21, silver 19, spelter 21, tin 23 and nickel nearly 5 per cent.

Of the principal metals the value of the total output of gold in 1908 is estimated at \$3,825,000, an increase of 14 per cent. Silver amounted to 22,070,212 oz. valued at \$11,667,197, an increase in quantity of 73 and in value of 40 per cent over 1907. Copper 64,361,636 lb., value \$8,500,885, shows an increase in quantity of 14 and a decrease in value of 25 per cent. Lead 45,725,886 lb., value \$1,920,487, shows a decrease in quantity of 4 and in value of 24 per cent. Nickel 19,143,111 lb., value \$8,231,538, shows a decrease in quantity of 10 and in value of 14 per cent. The production of coal in 1908 was 10,904,466 short tons of the value of \$25,567,235, compared with 10,511,426 tons, value \$24,381,842 in 1907.

The output of silver from the Cobalt district of Ontario was nearly twice as large in 1908 as in 1907, the quantity being 19,296,430 oz. in 1908 as compared with 9,982,363 oz. in 1907. If the output of this district continues to increase at the present rate Canada will in the immediate future become one of the chief silver producing countries of the world. The total silver production of the world in 1907 was approximately 193 million oz., the chief contributing countries being Mexico 65, the United States 59, Australia 17, Canada nearly 13 and Germany 12 million oz. With a production of 22 million oz. in 1908 Canada probably moves up to the third place, but still does not produce more than from 10 to 12 per cent of the world's output.

The following statement relating to mines and minerals in Ontario has been supplied by Mr. Thomas W. Gibson, Deputy Minister of Mines for that province :

The mineral production of Ontario in 1908, valued at the mines or works, was \$25,637,617 ; of this 65 per cent was of metalliferous products, and 35 per cent non-metalliferous. The principal items in the metallic list were silver \$9,136,830, pig iron \$4,390,839, nickel \$1,866,059, and copper \$1,071,140. The silver came almost wholly from the mines at Cobalt, the yield for the year being 19,444,400 ounces, or about 11 per cent of the world's production. There were shipped from the mines of the Cobalt camp 25,624 tons of ore and concentrates, of an average tenor of 759 ounces silver per ton. The shipments from the beginning of the camp have been as follows :

Year	Tons ore	Ounces silver
1904.....	158	206,875
1905.....	2,144	2,451,356
1906.....	5,335	5,401,766
1907.....	14,788	10,023,311
1908.....	25,624	19,444,400
Totals.....	48,049	37,527,708

The average contents of the shipments for the entire period so far has been 781 ounces per ton. The list of shipping mines in 1908 was the same as for 1907, with a few changes, the principal one being the appearance of the Crown Reserve mine as a producer of rich ore. The number of employees in the silver-cobalt mines and works was 2,414.

New districts containing similar ores are being opened up in South Lorrain and in the Montreal River region at Elk Lake, Miller Lake and Lake Gowganda. At the last-named place rich surface showings were found last year, and a large influx of people took place. During the winter months machinery and supplies were rushed in on an extensive scale, and beyond doubt the possibilities of this and the other Montreal River districts will be actively investigated during 1909.

The nickel-copper mines of Sudbury yielded 9,563 tons of nickel and 7,501 tons of copper, the Canadian Copper Company and the Mond Nickel Company being the only producers. The nickel-copper mines gave employment to 1,722 men.

The pig iron product of Ontario was 271,656 tons, of which 86,244 tons were from Ontario ores.

The non-metallic substances of chief production were Portland cement 2,022,877 barrels, \$2,417,769; bricks, \$2,123,248; natural gas, \$988,616; petroleum, 18,479,547 imperial gallons, \$703,773; and stone, \$530,041.

Department
of Secretary
of State.

The number of charters of incorporation issued during the calendar year 1908, including supplementary charters, was 290, as compared with 378 in 1907 and 374 in 1906. The total capitalization of the new companies in 1908 was \$91,579,875, and the capital of existing companies was increased during the year by \$17,160,000, making the total of the capital authorized in 1908 to amount to \$108,739,875, as compared with \$151,778,200 in 1907 and \$212,576,075 in 1906. The revenue of the Department, derived mainly from fees upon charters, was \$73,950 for the calendar year 1908, as compared with \$101,937 for 1907 and \$108,913 for 1906.

Naturaliza-
tions.

The naturalizations effected under the Naturalization act, 1902, for the twelve months ended June 30 1908 numbered 15,442. Of these 5,422 were formerly citizens of the United States.

The Canada
Temperance
act.

The Canada Temperance act, 1875, which prohibits the sale of intoxicating liquors in places that have adopted it, and which is administered by the Department of the Secretary of State, is now in force in twenty-two Canadian counties or cities. Of these ten are in Nova Scotia, ten in New Brunswick, and two in Manitoba. The act is not in force in any of the other provinces or territories of the Dominion. Three elections, two in Nova Scotia and one in New Brunswick, were held under the act during 1907 and 1908. The two elections in Nova Scotia resulted in the defeat of the act, whilst the election in New Brunswick resulted in the act being sustained.

Immigration
statistics.

In the year ended March 31 1908 262,469 immigrants arrived in Canada, this number exceeding by 39,767 the total of the previous twelve months and being considerably larger than in any previous fiscal period. Of the total number 120,182 arrived from the United Kingdom, 58,312 from the United States and 83,975 from other countries. In the decade ended March 31 1908 the total number of immigrants was 1,166,126, comprising 465,164 from the United Kingdom, 354,049 from the United States and 346,913 from other countries.

In his annual report for 1907-8 the Deputy Minister of the Interior remarks that this tremendous movement of the people is more than one-sixth of the total population of Canada according to the census of 1901, and that the immigration of the past twelve months is over one-twenty-sixth of the present estimated total population of 7,000,000. Never, he observes, in the history of the United States, where during the past century there was witnessed the mightiest immigration ever recorded, even when the movement reached its highest tide, did there come in from outside during any given space of time such a large immigration proportionately to population as has flowed into Canada since the advent of the new century. During the decade ended 1830 there arrived in the United States 143,439 immigrants representing $\frac{1}{78}$ th of the population in 1820, when it was 9,638,453, and in 1880 when the population was 50,155,783 there arrived 457,257 immigrants representing $\frac{1}{109}$ th of the total population, and even in 1907 when the immigration into the United States had passed the million mark each new comer on arrival was thrown into a group of at least 100 old occupants of the soil. An eminent American economist in reviewing the United States immigration of the nineteenth century stated: "No probability can be discerned that any later century will see the equal of this migration. The fairest parts of the world that were wildernesses in 1800 now teem with industry and population. There are no more virgin lands in abundance to occupy in this country; no more such enticements to draw millions from the homes of their fathers." Mr. Cory, in quoting this opinion writes:

Canadian and U.S. immigration compared.

Future prospects of Canadian immigration.

Judging from the unprecedented influx of population to Canada during the past eight years, and the consequent increase in agricultural products and railroad mileage, there would appear to be a strong probability discernible that the twentieth century will see a migration to Canada equal to that witnessed in the United States during the last half of the century just closed. There still remain vast areas of the fairest parts of the world in the northern half of the American continent that were wildernesses in 1900, but which will teem with industry and population before the milestone marking the half of the present century has been passed, and it is these virgin lands that are to-day drawing from the homes of their fathers the hundreds of thousands of settlers who are arriving in Canada.

The report further states that the British immigration has now assumed sufficiently large proportions to satisfy the widely-expressed desire on the part of Canadians throughout the old and new provinces that for obvious reasons we should receive a fair share of British subjects from the old land. With regard to the physical condition of the immigrants, Dr. P. H. Bryce, Chief Medical Officer, reports that during the year 1907-08 out of the total arrivals for Canada and the United States, numbering 283,592, only 1,002 arrivals for Canada were debarred entry and of these only 112 were British, although the British arrivals were nearly one-half of the total immigration. The vast majority of European continental immigrants who proceeded direct to the western provinces were also of a desirable class, and they either engaged at once in farm work or

Character of Canadian immigrants.

secured employment on railway construction. The splendid character and quality of the immigrants from the United States is matter of special comment. The value of the money and effects brought in by the 58,312 immigrants from the United States in 1907-08 is estimated at about \$52,000,000, or nearly \$1,000 per head. Forty-eight thousand of these American arrivals took up homesteads ; most of the remaining immigrants purchased land and went into farming, a life that 90 per cent of them had been following in their old home.

Juvenile immigration from United Kingdom.

During the year 1907-08 2,375 juvenile immigrants were brought over to Canada by British charitable and philanthropic institutions, all being subject to careful inspection in Canada by officers of the Department of the Interior. High praise is given to this work by Dr. T. J. Macnamara, M.P., Parliamentary Secretary to the British Local Government Board, who in a letter to Sir Wilfrid Laurier wrote :

I should like to say what very real pleasure it has given me to note the extraordinary kindness with which your people in Canada treat these children, and to say also how very much I appreciate the care which your officers of the Department of the Interior take to keep an eye on them. Nothing has given me such real pleasure during my three months at the Local Government Board as the reading of the reports.

Immigration during the calendar years 1905-08.

The following table shows for the four calendar years 1905-08 the total number of immigrants by principal countries of origin. Amongst the orientals are included Hindoos, Chinese, Syrians, Arabians, Egyptians, etc.

	1905	1906	1907	1908

Totals	146,622	215,912	277,373	148,700

This table shows that whilst the total number of immigrants in 1907, viz. 277,373, exceeded even the large figure of 262,469 already quoted for the fiscal year 1907-08 there were for the calendar year 1908 only 148,700 immigrants, a decrease of 128,673, or about 46 per cent. This large falling off has been generally attributed to the operation of the new regulations made under the Immigration act of 1906, which have for their object the exclusion from Canada, especially during the winter months, of unskilled immigrant arrivals that are either wholly destitute or that have no means of obtaining a livelihood upon reaching their destination in Canada. These regulations include money qualifications of \$50 or \$25, according to the period of the year, and the certification in London of emigrants on assisted passage. Every country mentioned in the table shows a diminution in the number of immigrant arrivals in Canada, excepting the United States, which shows an increase of 526.

Decrease of
immigration
in 1908

On March 5 the Deputy Minister of Labour proceeded on a mission to England to confer with the Imperial authorities on the subject of the restriction of immigrants to Canada from British India and other oriental countries. As the result of this mission measures have been concerted with the British and Indian governments which appear to have been effectual in arresting the migration to Canada of natives of India and orientals who owing to the climatic and other conditions of their local environment are entirely unfit for life in Canada.

Oriental
immigration.

The Dominion Lands act, chapter 20, revises and consolidates the laws and regulations affecting the disposition of the public lands, and contains new provisions likely to have an important effect in encouraging the settlement of agricultural areas. By section 27 any homesteader may, upon certain conditions and in townships designated for the purpose, acquire the right of pre-emption of any available quarter-section lying alongside his homestead or separated therefrom by only a road allowance; or, by section 28, where owing to the absence of available land he is unable to purchase a quarter-section adjoining his homestead, he may obtain entry for the purchase of any other available quarter-section open for entry. The fee payable on entry is fixed at \$10, and the purchase price at \$3 per acre, payable in instalments. The number of entries for pre-emptions made between September 1, the date when these new provisions came into operation, and December 31 1908 is 12,280, of which 8,417 are in Saskatchewan and 3,863 in Alberta. The number of entries for purchased homesteads under section 28 of the act during the same period is 679, of which 520 are in Saskatchewan and 159 in Alberta. The total number of ordinary homestead entries for the calendar year 1908 is 38,559, as compared with 29,414 in 1907 and 42,012 in 1906. All the entries in 1908 were made in the Northwest provinces with the exception of 440 in British Columbia.

Dominion
lands and
homestead
entries.

Dominion land surveys. Those provisions of the previous Dominion Lands act which related to land surveys are not included in the new act of 1908 ; but this part of the subject is dealt with in a separate measure intituled the Dominion Lands Survey act, 1908, chapter 21, which regulates the qualifications and appointment of Dominion land surveyors and lays down the conditions under which the surveys of the lands of the Dominion shall be executed.

New postal facilities. On August 8 an important reduction was made by the Post Office Department in the rate of postage on what are commonly known as local or drop letters posted in cities and towns where there is letter carrier delivery. Up to that date these letters were subject to the rate of two cents per ounce. They can now be posted at the rate of one cent per ounce. Also a modified form of rural mail delivery has been put into operation whereby persons residing upon established mail routes can have mail boxes put up, in which the mail courier on the route will deposit mail matter and from which he will collect mail matter and carry it to the post office.

General Elections of 1908. The tenth Parliament of the Dominion of Canada was dissolved by proclamation of the Governor General on September 17. Elected on November 3 1904, this Parliament assembled for its first session on January 11 1905, and its fourth annual session closed on July 20 1908. Writs for the calling together of a new Parliament, returnable on December 3, were issued on September 18, and general elections of members to serve therein took place on October 26. No change of government ensued, as the elections resulted in the return of a substantial majority for the existing administration of Sir Wilfrid Laurier, who has presided continuously over the eighth Ministry of Canada since his appointment as Premier and President of the Council on July 11 1896. The first session of the eleventh Parliament of Canada was opened by the Governor General with the customary formalities on January 20 1909, when the Hon. Charles Marcil was elected Speaker of the House of Commons. The Hon. James Kirkpatrick Kerr, K.C., was appointed Speaker of the Senate by Commission under the Great Seal dated January 14 1909.

International boundary between Canada and the United States. A treaty providing for the more complete definition and demarcation of the international boundary between Canada and the United States was signed at Washington on April 11 and ratified on May 4. The final terms of a further treaty providing for the regulation of fishery and other questions along the international boundary through the great lakes and waterways are awaiting settlement.

Accidents and disasters. Accidents and disasters during the year included the destruction on April 26 of the village Notre Dame de la Salette, Quebec, by a landslide, when 37 lives were lost. On June 23 a fire at Three Rivers, Quebec, caused damage to the extent of \$1,500,000. On August 2 fire in the Kootenay Valley, B.C.,

destroyed the town of Fernie, 70 lives being lost, 7,000 people rendered homeless and property damaged to the value of \$5,000,000. An enormous loss of timber occurred in September from forest and bush fires which raged in the Thunder Bay district, Ontario. The dryness of the summer rendered forest fires peculiarly destructive.

The sympathy of Canada as of that of the whole world went out freely to the people of Italy on the occasion of the appalling earthquake which occurred at Messina in Sicily on December 29, and a grant of \$100,000 in aid of the suffering survivors was promptly made by the Government of the Dominion.

The earthquake in Italy.

A parliamentary appropriation of \$15,000 was granted to assist in sending athletes to represent the Dominion of Canada at the international Olympic games held in London from July 13-25 in connection with the Franco-British Exhibition. A Scottish agricultural commission consisting of 22 representative agriculturists from Scotland traversed Canada from the Atlantic to the Pacific and back again from August 13 to October 2. Their report on Canadian agriculture and rural economy has since been published. A visit of the Sheffield Choir attracted large audiences at performances in some of the principal Canadian cities during November.

International Olympic games.

Scottish agricultural commission.

The Sheffield Choir.

Monday, November 9, the anniversary of the birthday of H. M. the King, was appointed by proclamation of the Governor General as a day of general thanksgiving to Almighty God for the bountiful harvest and other blessings with which Canada has been favoured during the year.

General thanksgiving.

To fill two vacancies caused by deaths during 1908 the Hon. Noel Chevrier of Winnipeg and the Hon. Valentine Ratz of Park Hill, Ontario, were appointed and sworn in as members of the Senate.

The Senate.

Four vacancies occurred in the House of Commons during 1908 before the dissolution of Parliament on September 17, and the following members were elected to fill them, viz.: Peter Douglas McLean for York Centre, Ontario, Gustave Adolphe Turcotte for Nicolet, Quebec, Charles Henry Lovell, for Stanstead, Quebec, and Murdo Young McLean for Huron South, Ontario.

House of Commons.

The following deaths have occurred: December 5, 1907. Henry Lovell, M.P. for Stanstead, Que., aged 79. December 9, 1907. Benjamin B. Gunn, M.P. for South Huron, Ontario. February 18 1908. The Hon. G. W. Burbidge, judge of the exchequer court of Canada. March 1. A. C. Killam, chairman of the Board of Railway Commissioners. March 2. Brigadier General Beaufort H. Vidal, Inspector General of Militia. April 13. The Hon. John Lovitt. April 20. Sir Adolphe Caron, K.C.M.G., Minister of Militia, 1880-1892, Postmaster General, 1892-1896. June 13. The Earl of Derby, K.G., Governor

NOTE. New Brunswick, Nova Scotia, Ontario and Quebec, the original provinces of the Dominion, were given representation in Parliament as provided in the B. N. A. Act, 1867, s. 37. British Columbia and Prince Edward Island were admitted 20 July, 1871, by an Imperial Order in Council of 16 May in the same year. Chapter 3 of 33 V. provided that on, from and after a day the Queen should by Order in Council admit Rupert's Land and Northwest Territory into the Dominion, there should be formed out of the same a province to be called the province of Manitoba. The admission of Rupert's Land and Northwest Territory was made under an Imperial Order in Council of 23 June 1870, to date 15 July of the same year. Manitoba was admitted under authority of chapter 3 of 33 V., 1870; but a doubt having arisen, the Imperial Parliament in 1871 passed an Act to make the Canadian Act valid and effectual. The Northwest Territories Representation Act, chapter 24 of 49 V. (assented to June 1886), gave two members to Assiniboia, one member to Alberta and one to Saskatchewan.

¹ Act of 1907. The Territories, exclusive of Yukon, were in 1905 erected into the provinces of Alberta and Saskatchewan, and after the census of 1906 a Representation Act was passed which gave Saskatchewan 10 members and Alberta 7 after the next ensuing election, which came off in October, 1908. Saskatchewan (pop. 257,763) comprises the districts of Assiniboia 34,910, Battleford, 18,622, Humboldt, 23,903, Mackenzie, 25,998, Moose Jaw, 23,156, Prince Albert 19,782, Qu'Appelle 30,997, Regina 29,633, Saltcoats, 22,119, and Saskatoon 28,643, each with one member. Alberta (pop. 185,412), comprises the districts of Calgary 25,391, Edmonton 26,320, Macleod 25,961, Medicine Hat 22,323, Red Deer 32,001, Strathcona 29,658 and Victoria 23,758, each with one member.

² The unorganized territories are without representation in Parliament.

¹ Not taken in 1871.

NOTE. The number of tenants for the census years 1871, 1881 and 1891 includes employees who had the charge of farms. Persons occupying farm lands, part of which was owned and part rented, were recorded in 1901 as owners and tenants. The number of occupiers of land in 1901 is exclusive of all persons holding less than five acres, and land occupied is farm land only.

Oats "	9,998,556	16,654,322	31.4	20.0

NOTE. The average production of wheat per acre in Manitoba for the thirteen years 1890-1902, according to the local government returns, was 19.22 bushels per acre, of barley 30.77 bushels, and of oats 35.65 bushels. In the Territories according to similar returns for the five years 1898-1902 the average of wheat was 19.53 bushels, of barley 25.6 bushels, and of oats 35.30 bushels. The low average yield in the Census year 1901 was due to the relative dryness of the growing season—the rainfall being but little more than one-half an average.

Other products...	306,100	119	39,619	72,320

NOTE. In this table the value of copper ore and products comprises \$1,095,753 copper, \$250,175 gold and \$294,188 silver; the value of gold ore and products comprises \$4,496,681 gold, \$28,637 silver, \$39,811 lead and \$22,725 arsenic; and the value of placer gold comprises \$400 platinum. The total production of gold in the census year is 862,000 ounces, worth \$14,493,417. The statistics of values of real estate and plant, number of officers and workmen and cost of salaries and wages for placer gold mines are exclusive of Yukon Territory.

MANUFACTURES.

TABLE XLVII. Statistics of industries, 1871.

Kinds of industries.	Estab-lish-ments.	Capital.	Wage earners.	Wages for labour.	Cost of materials.	Value of products.

NOTE: A census of population and agriculture of the Northwest provinces was taken under date of June 24, 1906, as provided by chapters 5 and 6 of 4 and 5 Edward VII. The electoral districts are as constituted by chapter 60 of 3 Edward VII, except that by an Order in Council of May 15, 1906, part of the electoral district of Selkirk, in the province of Manitoba, was added to the district of Winnipeg so as to conform with the boundaries of the city of Winnipeg as constituted by an Act of the Manitoba Legislature, assented to February 9, 1906; and except that the census districts of Assiniboia West, Mackenzie, Saskatchewan and Saskatchewan North, in the province of Saskatchewan, and of Alberta, Calgary, Edmonton, Strathcona and Alberta North, in the province of Alberta, are as constituted by the Order in Council aforesaid.

NOTE. The articles in this and the following table are usually grouped as natural products, as has been done in table xviii under the heads of agricultural, animal, fishery, forest and mineral products, as well as in tables ciii-cvi. But by some authorities they are grouped with manufactured products, and they have been abstracted here to show the kinds and

Totals.....	79,383,977	80,118,919	96,726,727	77,895,072	98,989,322

values of articles to be added to manufactures in those several tables, if so classified. If added to the exports of manufactures as given in table xcvi, p. 184, or in table cvi. p. 247, the total values would be \$99,248,026 for 1904, \$101,310,252 for 1905, \$121,287,839 for 1906 and \$127,496,446 for 1908. Added to the exports of manufactures to Britain in table xcvi the total value for 1908 would be \$52,390,687, to the United States \$54,572,028 and to other countries \$20,533,731; and the total increase in the period from 1904 to 1908 would be 28 per cent. But of course the chief component value of these exports is that of raw material.

NOTE. The cost of the Intercolonial and P.E.I. Railways is not included in this statement of aid, as in former years. Neither is the cost of the Temiskaming and Northern Ontario Railway included in the statement of aid from Ontario.

RAILWAYS.

TABLE CCXXVI. Railway investments in Canada to June 30 1908.

Schedule.	Steam railways.	Electric railways.
Number of railway lines	97	53
Miles of lines completed	22,966	992
Ordinary share capital—	\$	\$
Authorized.....		66,845,112
Subscribed.....		45,545,921
Paid up.....		45,425,558
Capital stock outstanding	607,891,349	
Preferential share capital—		
Authorized.....		5,973,074
Subscribed.....		5,369,708
Paid up.....		4,869,708
Bonded debt—		
Authorized..		34,795,784
Issued.....		35,129,651
Sold.....		33,859,651
Outstanding.....	631,869,664	
Dominion Government aid—		
Loans.....	15,576,533	—
Bonuses.....	76,355,381	156,800
Subscriptions to shares or bonds.....	—	—
Paid up.....	74,527,469	156,800
Provincial Government aid—		
Loans.....	6,581,969	—
Bonuses.....	29,819,527	306,945
Subscriptions to shares or bonds.....	300,000	—
Paid up.....	28,309,446	306,945
Municipal aid—		
Loans.....	2,404,499	40,000
Bonuses.....	12,463,806	168,000
Subscriptions to shares or bonds.....	2,839,500	—
Paid up.....	12,186,946	208,000
Capital from other sources—		
Subscribed.....	—	3,035,476
Paid up.....	—	3,076,669
Total capital—		
Subscribed.....	—	89,080,756
Paid up.....	1,354,784,874 ¹	87,903,331

¹ Comprising bonds sold, paid up ordinary and preferential share capital, paid up government and municipal aid and capital from other sources.

RAILWAYS.

TABLE CCXXVII. Expenditure for construction of Government railways to June 30 1903.

Railways.	\$
Intercolonial	77,376,483 ¹
Cape Breton	3,860,679
Oxford and New Glasgow	1,949,284
Eastern Extension	1,324,043
Drummond County	1,464,000
Montreal and European Short Line	333,943
Canada Eastern	819,000
Prince Edward Island	7,697,827
Totals	94,825,259
National Transcontinental	27,074,327

¹ Not including \$296,873 charged to consolidated fund.

CANALS.

TABLE CCXXVIII. Cost of construction and enlargement of canals 1868-1908 and before Confederation.

Canals.	Cost of construction.	Cost of enlargement.	Total cost.
	\$	\$	\$
Beauharnois	1,636,690	-	1,636,690
Carillon and Grenville ¹	63,054	4,119,039	4,182,093
Chambly	637,214	-	637,214
Cornwall	1,945,625	5,288,558	7,234,183
Culbute	382,776	-	382,776

¹ British and Canadian sea-going vessels in Canadian waters and Canadian vessels in other waters. ² 545 persons were lost by the wreck of the White Star ss. *Atlantic* in Turns Bay, Nova Scotia. ³ The returns to the Department of Marine and Fisheries give the number of lives lost as 602, which include 562 persons who were drowned in the wreck of the steamship *La Bourgoigne*, 60 miles to the south of Sable Island and therefore on the high seas. The vessel was running between New York and Havre.

NOTE. The statistics for the years 1895 to 1908 are for the 12 months ended June 30.

¹ Nine months.

NOTE. The Eastern inspection division consists of all that portion of Ontario lying east of Port Arthur, and the provinces of Quebec, New Brunswick, Nova Scotia and Prince Edward Island; and the Manitoba division consists of Manitoba, Saskatchewan, Alberta, British Columbia and that portion of the province of Ontario lying west of and including the district of Port Arthur. The statistics of 1906, 1907 and 1908 in the table are based on the qualities of grain determined by sections 88-90 of the Grain Inspection Act of 1904.
